

NEW & IMPROVED FORMULA

DGP[®] All Natural Support for Pet Mobility & Flexibility

"Keira is a terrific dog with a great temperament. However, she was really showing her age. I tried different things but they didn't do the trick. Then came DGP and what a miracle! My friends and neighbors have noticed how well she's doing... I happily tell them about DGP."

– Carol R

"I can't tell you how much I appreciate what DGP has done for Bosco. Every day I wake up wondering what new thing he'll do. Thank you from the bottom of our hearts."

– Janice P.

Your Dog Can Have His Day... Again!!!

DGP[®] is specifically formulated to support an aging pet's mobility and flexibility, while helping ease the aches and discomfort caused by daily exercise, activity and training. Australian master herbalists and scientists developed this readily-absorbable combination of high quality ingredients. DGP provides a nutritionally-rich blend of antioxidants, minerals, amino acids, proteoglycans, collagen and other key nutrients essential for the health, well being and continued mobility of aging pets.

New & Improved DGP is now even *better...*

- Now rich in mucopolysaccharides... to further sustain pet mobility & flexibility.
- New beefy flavor and scent ... pets gobble it right down!
- Not just for dogs... cats benefit from DGP, too!

Why Do Thousands of Pet Owners Happily Buy This Astonishing Pet Mobility Breakthrough Every Month?

Because DGP has proven itself...time and time again, even in the toughest cases. In fact, DGP has acquired a stellar reputation from pet owners coast to coast. That's because it works quickly so pets can continue to be healthy and active as they age. And make no mistake: these pet owners are not shy when it comes to raving about DGP's remarkable powers.

That's how one skeptical holistic animal practitioner heard about DGP. Her clients couldn't stop talking

about how DGP was dramatically affecting the mobility of their pets. So she gave it to her dog James who had joint issues. It worked! And, within just a couple of weeks.

Still cautious...but now definitely intrigued...this careful, science-minded medical professional decided to conduct case studies and put DGP to the test. The cold hard facts below speak for themselves. Why not put DGP to the test yourself? It's guaranteed to work!

Case Study Design

1. 6-week study evaluation. DGP administered to a variety of canine breeds, sizes, ages, and genders in various geographic locations throughout the US – 12 dogs, 10 different breeds, ages 5 to 13.
2. Each dog had "pre-study" blood drawn by a qualified veterinarian for a complete blood workup and "super chemistry panel".
3. Dog owners evaluated their pet on a multitude of levels prior to administration of DGP and then kept a comprehensive 6-week diary recording the dog's observed progress.
4. Upon completion of the six weeks, each dog had blood drawn again to identify any possible changes.

Results

1. All 12 dogs in the study benefited from DGP!
2. Every dog owner reported noticeable and significant progress within two weeks.
3. The DGP chewable tablets were well tolerated by 11 of the 12 dogs.
4. No changes in the blood work.

Summary

When a dog's mobility is not sufficiently maintained, it adversely affects their entire physiology, as well as their personality, vitality and behavior. The case study shows that DGP's unique formula of herbs and targeted nutrients support continued health, well being and mobility of aging pets.

Product Facts

Active Ingredients	Mg per Tablet
Marine Collagen Extract	300mg
Boswellia Extract	30mg
Corydalis Root	25mg
Wheatgrass	20mg
Turmeric	15mg
Feverfew Extract	6mg
Celery Seed Extract	3mg

A proprietary blend of (Mucopolysaccharide Complex, Malt Extract, Wild Rosella, Capsicum Extract, Aniseed Myrtle, Mountain Pepper) 130mg

A proprietary enzyme blend of (Bromelain 2400GDU & Papain 6000) 60mg

Inactive Ingredients: microcrystalline cellulose, magnesium stearate, natural beef extract, silicon dioxide, stearic acid.

Directions for daily use:

Weight

Under 15 lbs	1/2 tablet
15-30 lbs	1 tablet
31-60 lbs	2 tablets
61-90 lbs	3 tablets
91-120 lbs	4 tablets
